

## Funding and Using Your Coinbase Bitcoin Wallet

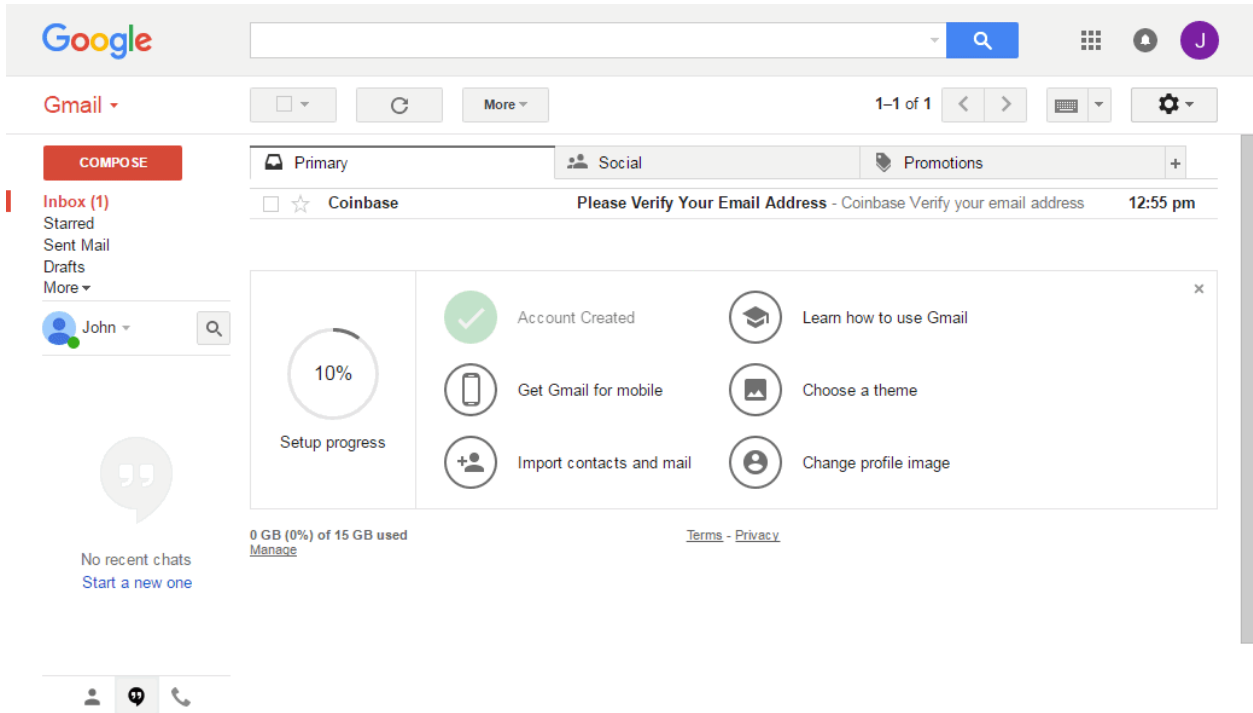

1. First, go to the Coinbase website and click the "Sign Up" button...

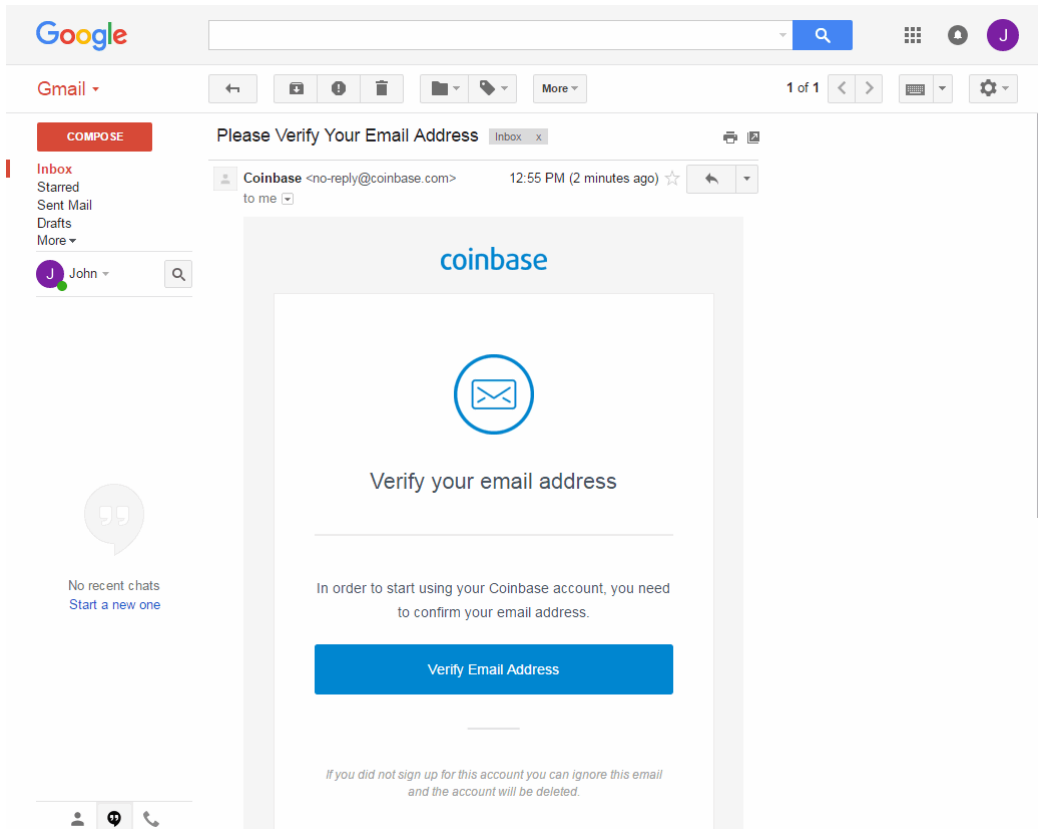

2. Fill out the information and Create Account... You should arrive on a screen that looks similar to this:

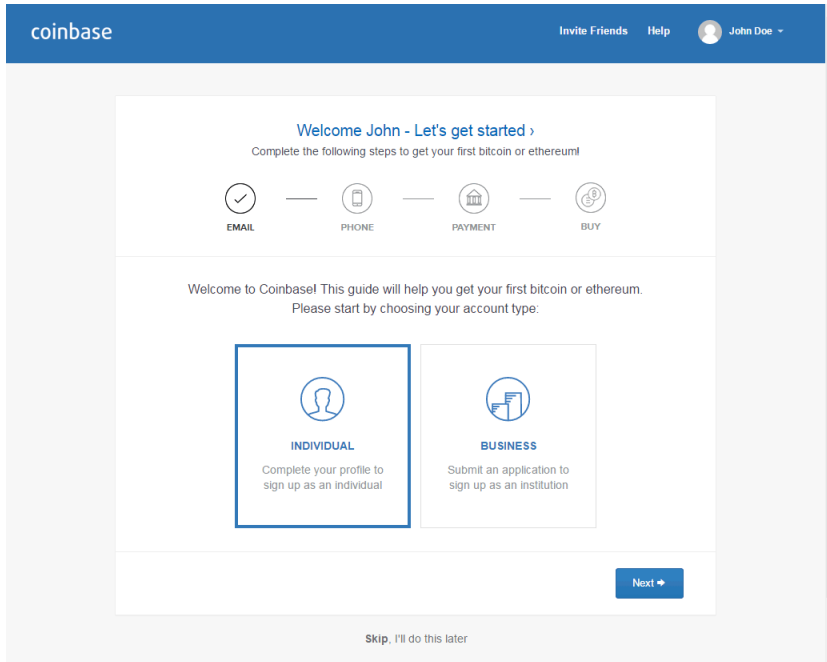

3. Go to your email inbox and you should see an email with a similar subject line...

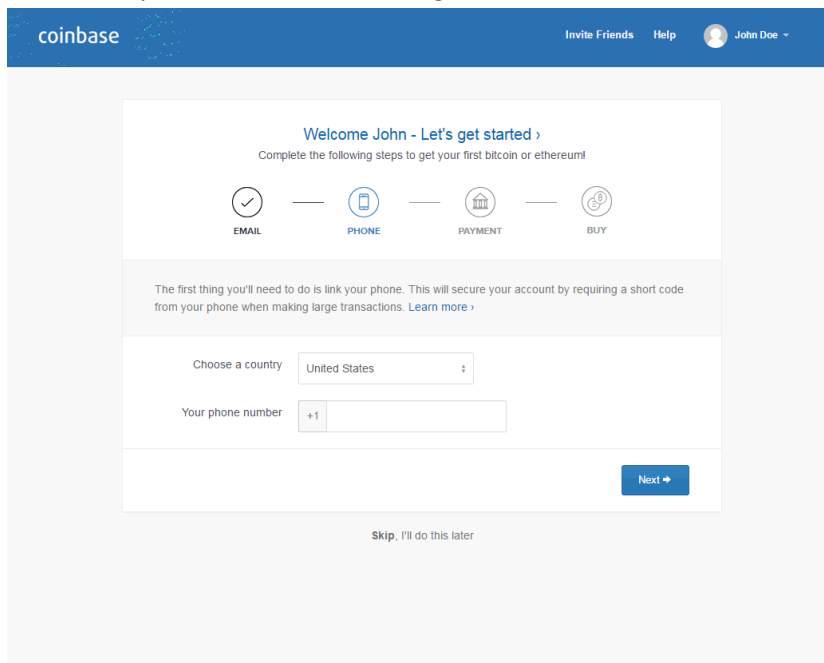

4. Click on the email and you should see the following:

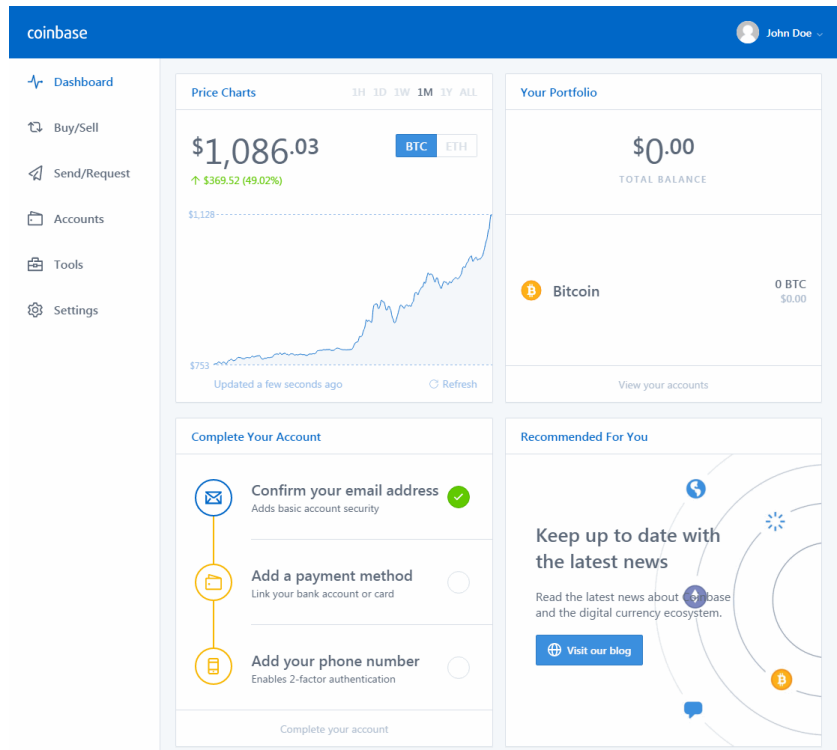

5. Click on the Verify Email Address and you should be taken to a page that looks like this. Click Next

6. Click on Skip this for now... You can go back later and fill out more security information.

7. Now you have a Coinbase Account and your dashboard should look something like this. Click on Settings...

8. Eventually an Identity Verification page comes up... Fill it out and select Next

The screenshot shows the Coinbase Identity Verification page for John Doe. The form contains the following fields and options:

- Legal Name:** John Doe
- Date of Birth:** July 4, 1976
- Street Address:** 323 Avenida Pinos
- Unit #:** (empty)
- City/State/Zip:** San Jose, California, 89951
- Country:** United States
- Last 4 digits of SSN:** 2345
- What do you use Coinbase for?:** A list of checkboxes:
  - Investing
  - Trading
  - Trading On Other Exchanges
  - Online Purchases
  - Online Payments
  - Business
- What is your source of funds?:** Occupation
- Current Occupation:** Investor Self

A "Next" button is located at the bottom of the form.

9. If everything worked out okay, return to the dashboard and click on Buy/Sell... Click Add new and follow the directions.

The screenshot shows the 'Buy' tab of the Buy/Sell interface. The 'Payment Method' section has a green box around the 'Add new' button with a callout bubble that says 'ADD NEW'. The 'Amount' section shows '0.00 USD' and '0.00 BTC'. A large blue button at the bottom says 'Buy Bitcoin Instantly'.

Subtotal ..... \$0.00  
Total ..... \$0.00

10. Fill in the amount of Bitcoin you want to purchase. If you put in USD, BTC auto populates. Click on the Buy Bitcoin Instantly button.

The screenshot shows the 'Buy' tab of the Buy/Sell interface. The 'Amount' section has a green oval around the input fields, which now contain '10.00 USD' and '0.00916668 BTC'. A callout bubble points to the '10.00' with the text 'How much do you want?'. The blue button now says 'Buy Bitcoin Instantly - \$10.40'. The right-hand summary panel is also updated.

13. Now let's see what our bitcoin address is so we can fill in our CrazeBTC wallet info. Click on "Get bitcoin address."

Label	Balance	Last Activity	Actions
<b>BTC Wallet</b>	0.00969971 BTC ≈ 10.60 USD	1 minute ago	<a href="#">Rename</a> <a href="#">Get bitcoin address</a>
<b>ETH Wallet</b>	0.0000 ETH ≈ 0.00 USD	4 days ago	<a href="#">Rename</a> <a href="#">Get ethereum address</a>
<b>BTC Vault</b>	0.0000 BTC ≈ 0.00 USD	Needs to finish setup	<a href="#">Rename</a> <a href="#">Delete</a>

Bitcoin sent to your email address will arrive in your primary account.

14. And Voila. It is here anytime you need to copy it so you can receive payment.

**BTC Wallet Bitcoin Address** [Close]

Select/Copy

1N2bSTKCC...VqCeiYdYki9

15. Now let's make a payment using our new wallet. From the dashboard, select Send/Request.

Label	Balance	Last Activity	Actions
BTC Wallet	0.00969971 BTC ≈ 10.60 USD	1 minute ago	<span>PRIMARY</span> Rename Get bitcoin address
ETH Wallet	0.0000 ETH ≈ 0.00 USD	4 days ago	<span>PRIMARY</span> Rename Get ethereum address
BTC Vault	0.0000 BTC ≈ 0.00 USD	Needs to finish setup	<span>UNCONFIGURED</span> Rename Delete

16. A form should pop up that requests who you are going to send the money to and for how much.

**Send Funds**

BTC Wallet 0.00969971 BTC ↕

Note

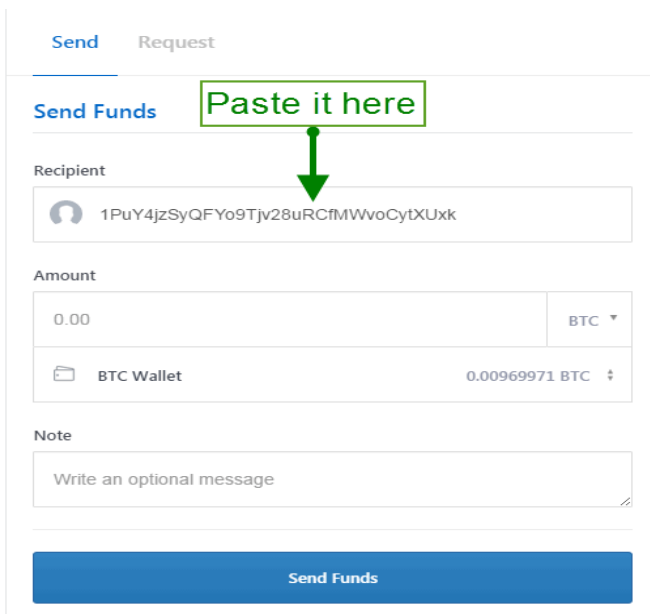

**Send Funds**

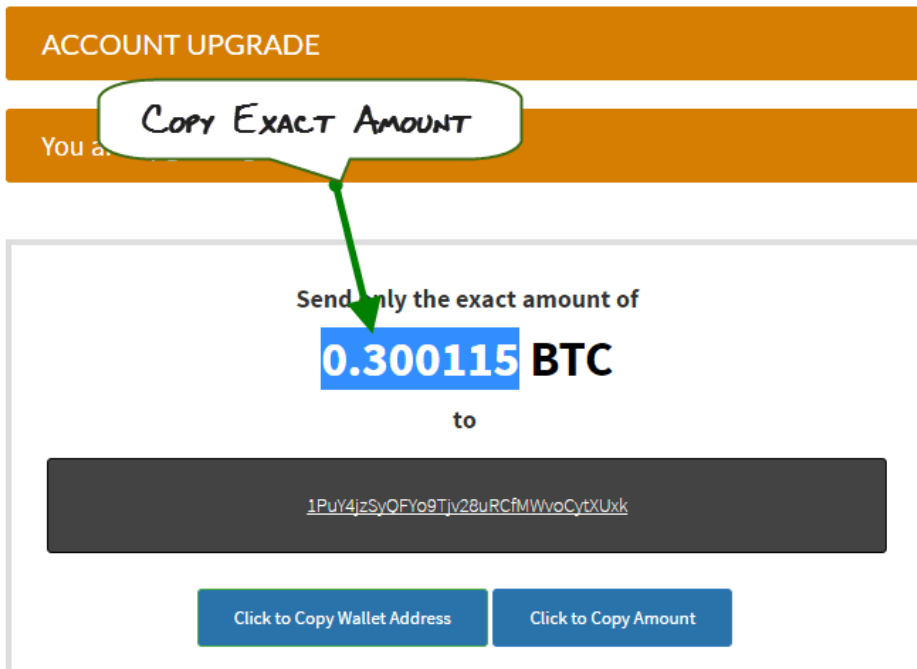

17. Just for grins, let's use upgrading our CrazeBTC account as an example of actually making a payment. In order to do this, we need to capture the bitcoin address to which we want to send the funds and the amount of bitcoin. This information is readily available from our CrazeBTC upgrade screen. Select and copy the Bitcoin Address, then navigate back to the Coinbase payment page.

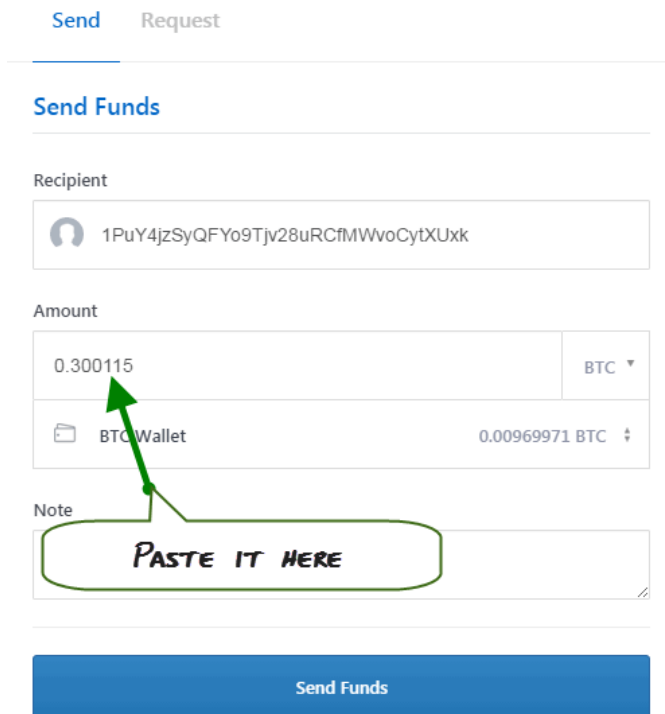

18. Paste the Bitcoin Address payment thusly:

19. Return to the Account Upgrade screen and copy the exact amount of Bitcoin shown in the window.

20. Navigate back to Coinbase and paste into the appropriate field on the payment form and click Send Funds

21. It won't just send. You must confirm that you actually want to send. Carefully verify the details, because you DO NOT want to get it wrong. There are no refunds or do overs with Bitcoin payments. Click Confirm and move to the next screen.

[Send](#) [Request](#)

---

### Confirm Send

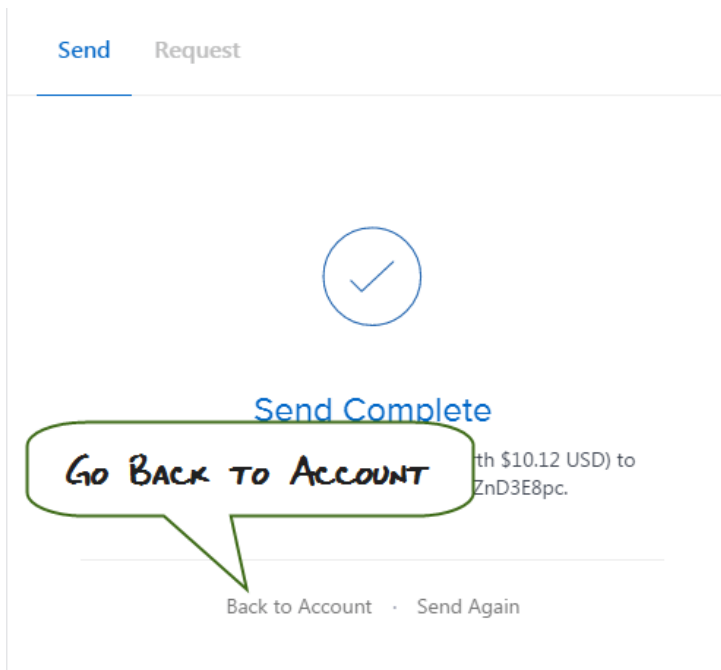

---

 You're about to send **0.0092 BTC** (worth \$10.12 USD) to **1CAUG8iTiMwpuqUjjo7fMAhfUhZnD3E8pc**

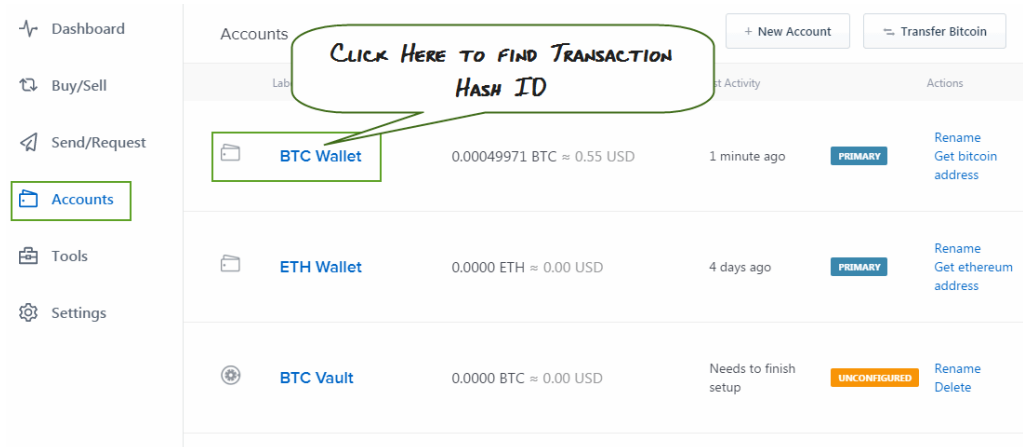

To	<b>Bitcoin Address</b> 1CAUG8iTiMwpuqUjjo7fMAhfUhZnD3E8pc
From	 BTC Wallet
Amount	0.0092 BTC

[Back](#) [Confirm](#)

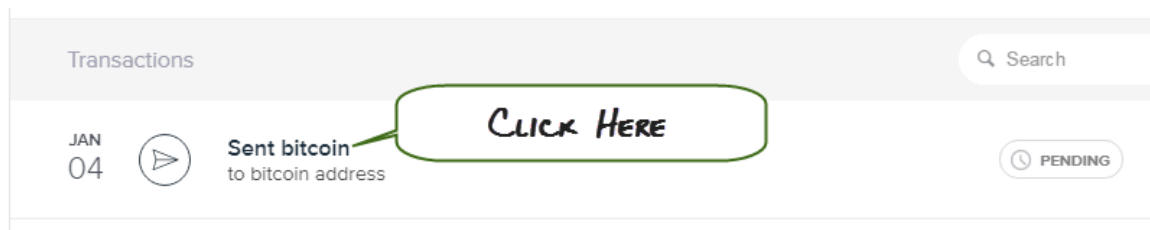

22. Once it has sent correctly, a "Send Complete" message window pops up. Select "Back to Account" so we can find out our Transaction Hash ID.

23. The Account screen magically appears and you want to select your BTC Wallet. This will show you a history of your transactions. Presumably, we are only interested in the top transaction.

24. Presumably, we are only interested in the top transaction (which is all I am showing you coincidentally). Click on the Sent bitcoin and a page with a little more detail will pop up.

25. Although this says there are 0 confirmations, ignore that and click on it.
